

**National Strategy Regional Oversight Plans
Region 3
March 2015**

PROGRAM	Significant Issue	Corrective Measures/Escalation Approach with Timeframes
Cross Media	EPA Region identified significant performance problems across the DC Department of the Environment's (DDOE) enforcement programs	Performance Partnership Agreement (PPA) was signed by EPA and DDOE on February 28, 2012. Amendments followed for FY13 and FY14. DDOE management has change and the Region is working with DDOE to determine a path forward. However, after several years of close management in the UST inspection/enforcement, Air permitting and enforcement programs, we have scaled back our efforts. The UST program will monitor performance through periodic program reviews in FY15. The Air program will monitor performance through quarterly T&A meetings.
